(54) PREPARATION OF MILK SHAKE

(57) Abstract:

PURPOSE: To prepare the subject shake exhibiting the same mouth feeling as that of a milk shake produced and sold in an eating house, etc., by a ready operation at home, etc.

CONSTITUTION: This invented method for producing a milk shake is characterized by homogenization of raw materials containing 12 to 26wt.% oil and fat components, 10 to 18wt.% sweetening having ≤ 200 molecular weight, an emulsifier and 55 to 72wt.% water, freezing and subsequent thawing by a microwave oven.
